

IMPAKDRIVER®

THE QUICK AND EASY WAY TO LOOSEN AND TIGHTEN FROZEN FASTENERS.

- Tighten or loosen screws, nuts and bolts with a hammer blow.
- Quick and easy.
- Rugged construction for long-term durability and reliability.
- Prevents expensive and unnecessary damage to fasteners and machinery.
- Available in five different sets, with and without bits and sockets.
- Available bits include both straight and Phillips
- Available hex sockets for use with 0690M (3/8") Impakdriver.
- 100% made in USA.
- Always wear safety glasses when using a striking tool.

Just give the Impakdriver one quick blow with a hammer, and even the toughest hard-to-reach bolts, screws, and nuts can be loosened or tightened in seconds. A great time saver for every tool box.

Guaranteed against defects in material and workmanship for one year.
