

100 Series & Crank Handles

Only Lowell offers ratchet wrenches from 7 inches to 60 inches long. The 100 series wrenches range from 7 to 12 inches from the center of the gear to the end of the handle with openings from 3/8 inches to 1-1/4 inches. The 100 series wrenches find applications in many machinery adjustment applications. The gear teeth provide maximum torque for adjusting rollers, slitters, doctor blades, folders, gluers, unwinds, rewinds, and stems. All of the 100 series handles are available with crank handle. Crank handles are available in steel or plastic, either fixed or revolving. One piece shifter offers easy, trouble free use.

4PLR = Plastic Long Revolving (3-1/2 inches long) .
4SLF = Steel Long Fixed (3 inches long) .
4SLR = Steel Long Revolving
4SSF = Steel Short Fixed (2 inches long).
4SSR = Steel Short Revolving
 Revolving version has a collar that allows the handle to revolve.
