

# Lineman's Transmission Wrenches

## 152

SKU: 21-15201-0000 *Handle*  
SKU: 22-95823-5902 *Socket*

*17", 3.75lbs*

## 52 DS

SKU: 21-52901-0000 *Handle*  
SKU: 22-95823-5902 *Socket*

*16", 4.1lbs*

## 53 DS

SKU: 21-53901-0000 *Handle*  
SKU: 22-95823-5902 *Socket*

*20", 5lbs*

## 104T

SKU: 21-104L1-0000 *Handle*  
SKU: 22-L3824-5903 *Socket*

*16", 3lbs*

## 105T

SKU: 21-105L1-0000 *Handle*  
SKU: 22-L3824-5903 *Socket*

*19", 3.4lbs*

## 304T

SKU: 21-338Q3-0000 *Full Assy*

*17", 2.5lbs*

### Double Square socket up close!

### Triple Square socket up close!

SKU: 22-L3824-5903 *Socket*

### 304T Quad Square socket up close!

SKU: 21-L38Q3-0000 *Socket*

The 1-5/16" x 1-7/16" double square socket allows for tolerances on 1-1/4" square nuts (3/4" bolts) and 1-3/8" square nuts (7/8" bolts), and also fits 1-1/2 inch hex. This double square socket fits the 52, 53 and 152 handles. The Triple Square Transmission socket comes on the 104 and 105 models, and has 1-1/8" + 1-5/16" + 1-1/2" Squares. The 304T, a.k.a. the New England Tower Wrench, features a Quad Socket with 1-1/8" + 1-5/16" + 1-1/2" Squares, plus a 1-5/8 Hex. Bolt-Thru design allows rods to pass through the socket so nuts can be secured on any threaded length. The 104, 105, 304, and 152 models are a heavy duty fabricated steel handle with a vinyl grip. Lowell's 52 and 53 models are cast iron. All models are coated with an epoxy paint for durability and easy cleaning. Contact Lowell today so we can help make your tough job easier!
