

Heavy Duty Strap Wrenches

Turn any shape without scratching, denting, or crushing.

Simplex Wrench

The Simplex has a single piece design with contoured palm shaped handle. The strap attaches to the wrench with a “pound –in” wedge. Polyester straps on the larger models are latex coated for increased gripping power.

Warnock Wrench

The Warnock is the original strap wrench for handling highly polished and smooth surfaces. A rugged shackle swings away from the handle allowing quick adjustment of the strap. The Polyester strap is also latex coated.
